Estimation Software Training

We invite you to attend our training course for current users and professional roofers interested in using the AppliCad Roof Wizard Software.

About this course	Our expert facilitator will guide you through all the major functions and applications of AppliCad's roofing estimation software. You will learn how the software will benefit your business and practice your estimating skills in an engaging training environment. You can take your training exercises home with you.
Why you should attend	After completing this course, you will be able to confidently use the Roof Wizard in its major functions. The course will take you from beginner to intermediate user skill level. This means after the course you can start applying your new skills immediately in your business.
Course duration	3 full days, morning and afternoon coffee, refreshments and lunch will be provided on each day
What you need to bring	You need to bring your own laptop or desktop PC with Windows OS loaded. We recommend that you use a 3-button mouse which will allow you to work much faster. We will provide you with the Roof Wizard software for the training.
Course dates	**Monday 24th April – Wednesday 26th April 2017** 8.30am for a 9.00am start until 5.00pm each day
Course location	**Crowne Plaza Chicago O'Hare Hotel** **Rosemont, IL 60018** **Ph: +1 847 671 6350**
Course cost	**Early bird course fee per person: US$ 1,350 (book before 31 Mar 2017)** **Full rate course fee per person: US$ 1,650** Full payment due with registration. Cancellation policy is available on http://www.applicad.com/legal
